

STORE FIXTURES

Inspired  
Liquor  
Concepts

# Welcome to ADP Store Fixtures

Welcome to the new catalogue, dedicated to the unique needs of the liquor retailer. You can now benefit from our long years of experience gained by listening to clients and seeing what works in the field.

ADP Store Fixtures is an agile and responsive team of retail industry professionals. We work with retailers nationally to create retail fixturing and display systems that deliver proven results in-store.

With over 40 years of industry experience, ADP Store Fixtures leverages an extensive global supply chain of trusted partners combined with in-house Australian timber and metal fabrication facilities. This means we are uniquely placed to achieve a tailored solution for our clients' shop fitting needs, on-time and on budget.

Through our large range of standard items, you now have access to many of the retail solutions previously only available to larger organisations.

We look forward to working with you.

## Inspired Retail Concepts

This statement is behind everything we do. We understand that retail success is achieved by differentiation and providing a unique experience for the customer. Our job is to bring your vision to life. Our in-house designers incorporate a wealth of experience in retail design, shop fittings, and retailing itself. Achieve an outstanding result that not only looks fantastic but is functional, practical, and cost-effective to roll out.

# Approach & Outcomes

## 1. Consultation

We believe that every retailer is different. Differentiation in today's retail environment is the crucial ingredient to sales success. Your retail store environment provides the greatest opportunities for creating unique and engaging ways for customers to interact with your brand.

Our uniquely integrated Design, Procurement, and Construction expertise enable ADP Store Fixtures to work closely with our clients. We aim to include all stakeholders, business owners, banner group business development managers and store managers to develop considered solutions that achieve maximum impact for every brand, market segment, and location that we work with.

## 2. Conceptual Design

Realise your design vision with attractively styled store fixtures that achieve desired brand outcomes and demographic considerations.

We can provide floor plans of store furniture layouts together with complete 3D renderings that will give you the best chance of a seamless integration of your plan into reality..

### The Modular Advantage

Our modular solutions are revolutionising retail projects throughout Australia. The durability of flexible modules reduces the stress and frustration associated with complete retail roll-outs, and achieve major savings on construction, delivery, installation and total lifespan. We aim to get you trading sooner or to minimize trading disruption by providing a staged installation.

## Custom Projects

Can't find what you are looking for? When your project requires brand-specific design to make it unique, we work with retailers, designers, and shopfitters to develop custom solutions that will deliver proven results in-store.

## Fast Rollout

Our strategically located Australian warehouses provide high stockholding capabilities and combine with our in-house customisation facilities to ensure that projects are delivered rapidly to any location in Australia.

## Cost-Effective

Utilising our modular systems as a starting point, many complexities associated with traditional retail rollouts are removed. Achieve the desired look and benefit from tangible cost savings using ADP's methodology.

---

# Vision Statement

ADP STORE FIXTURES vision is to become one of the leading Australian companies providing in-store functionality to the Retail Trade giving shoppers a visual experience by contributing to the ambience and atmosphere which increases customer traffic and makes shopping easy and pleasurable.

# Sustainability

## We're Serious About Sustainability

Today, as businesses have become more fast-paced and dynamic with higher output capabilities, so has the demand to demonstrate greater environmental stewardship and social responsibility grown exponentially.

ADP is 100% committed to sustainability and the safeguarding of the natural environment. We have created and implemented the Green3 Environmental Policy to minimise any negative impact on the environment caused by our business operations & products. This policy addresses the 3 main environmental issues that our industry faces being Material, Energy & Waste.

- Take a look at how the S-Mart Shelving System can be used as a Floor-ceiling system to create office partitioning walls, incorporating standard timber doors and viewing windows.
- You can utilize the framework of the uprights for standard shelving or on the inside of the office to mount benchtops, cabinets or adjustable shelving.
- No flushing, sanding & painting - ready to move into immediately.
- You can drastically reduce building waste ending up in landfill by using re-usable and recyclable components.
- Call our design team Today to get this to work for you and the environment!

---

## We can have a positive impact by:

### Material

We are committed to utilising renewable & recycled materials that have been sourced from suppliers that are equally environmentally aware and meet their respective environmental regulations.

- Minimising the use of plastics
- Ensure timber board products are EO or E1 certified. We only use Australian manufactured timber panels from certified suppliers
- Minimize packaging materials and utilise sustainable packaging materials where possible
- Avoid the use of harmful chemicals & chemical compounds
- Procurement department to continually research sustainable alternatives.

### Energy

ADP is aware that as a manufacturer, we use more electricity than most industries and therefore are understandably responsible for reducing our reliance on non-renewable energy resources.

We have recently made the following changes to reduce our Carbon Footprint and are continuing to;

- Lessen our draw on the electricity system through the installation of Solar Panel systems, the latest energy-efficient LED lighting technology and the incorporating of Light Sheets into the warehouse/production roof to increase natural lighting throughout the facility.
- Use of late-model electric forklifts.

### Waste

Shop fitouts are a major contributor to landfill volumes. ADP is committed to practical solutions to minimise single-use building materials and develop sustainable alternatives to existing systems.

- We are to be guided by the following principles in our business activities;
- Design products to ensure minimal waste.
- Ensure processes are engineered with LEAN principles in mind to eliminate as many forms of waste as possible.
- Educate & engage employees on waste elimination in every business activity.

Increase the life cycle of our products. Provide modular components that can be re-used when required to minimise the impact on landfills

## GONDOLA SIGNAGE

AP21290

### GONDOLA DIRECTORY SIGN

- Fits into standard 80 x 30mm slotted tubing uprights. Steel 'T' piece can be cut to required height
- Supplied with 'S' hooks to suspend the pre-cut signage panels
- Supplied with 8 blank signage panels that can be easily signwritten to suit store design
- Can be supplied with optional top signage panel to maximize branding opportunities
- Clear rigid plastic support strips provide vertical support for taller signs using material up to 2mm thick

### KIT SUPPLIED WITH:

- Components for 'T' piece (Black powdercoat finish)
- Four large 'S' hooks (for top tube)
- Twelve small 'S' hooks (for suspending sign panels below)
- Eight plain sign panels with pre-drilled holes & radius corners. Matt Black finish.
- OPTIONAL - Top signage panel for 1 or both sides.

| Part No.v | tHeightt                                  |
|-----------|---|
| AP21280   | 800mm (H) x 750mm (W)                     |
| AP21281   | Signage disc with attachment - 250mm dia. |

### GONDOLA DIRECTORY SIGN

- Tubular upright posts fits into standard 80 x 30mm slotted tubing uprights.
- Horizontal tubes connect tubular upright posts and are supplied with 'S' hooks to suspend the signage panels (supplied by others)
- Allows for almost unrestricted visibility above gondola.

| Part No. | Height                                    |
|----------|---|
| AP21290  | Tubular upright post - 450mm (H)          |
| AP21291  | Horizontal tube with 'S' hooks - 914mm(L) |

## MAGNETIC 'U' FRAMES

- Steel open top frame allow for signage material up to 6mm thick.
- Allows for creative shaped top designs
- Magnetic feet attach directly to

| Part No.   | Depth |
|------------|-------|
| AP21265/06 | 600mm |
| AP21265/09 | 900mm |

## MAGNETIC CORNER SIGNHOLDER

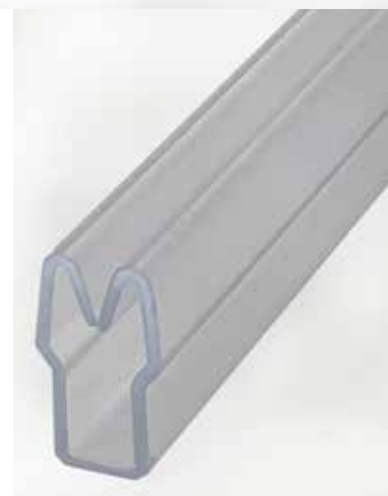

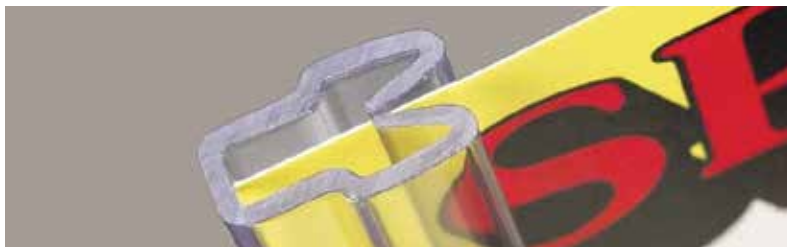

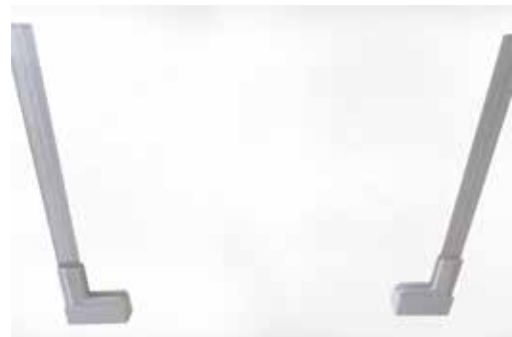

- Rigid signage panels up to 3mm thick are retained in the slot of this simple signage solution

| Part No.  | Colour       |
|-----------|--------------|
| AP21270BK | <b>Black</b> |
| AP21270WH | <b>White</b> |

| Part No.    | Colour               | Depth        |

| To suit 1500mm High Gondola Bays |                    |             |
| AP9785/470                       | 600mm x1530mm (H)  | 470mm       |
| AP9785/570                       | 700mm x 1530mm (H) | 570mm       |

## GONDOLA CURVED END SHELVES

---

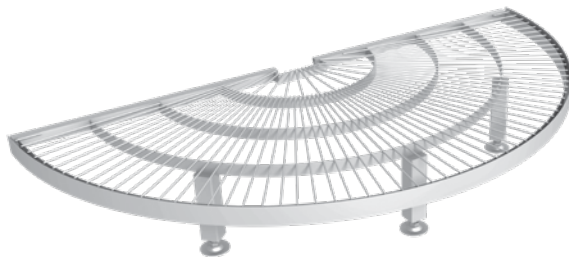

### GONDOLA CURVED END SHELVES

- Now you can make a grand statement with the Radius Wire Shelves. Designed to fit perfectly onto the end of a Cantilever or Outrigger gondola, they provide scope for some stunning merchandising effects.
- Can be used in-line with the gondola shelves or at different heights to provide another alternative display.
- Can be retro-fitted onto other brand gondolas or onto the S-MART Long Span shelving by adding an additional gondola upright.
- Use different radius shelves to provide a “pyramid” effect on your gondola ends.
- Radius wire shelves assist with traffic flow and customer navigation through your store.

| AP9763/470 | 914mm      | 1500mm     | 4              | 470mm       |
| AP9763/570 | 914mm      | 1500mm     | 4              | 470mm       |

### HOOK-ON SIGNAGE 'C' CHANNELS

- Very versatile and simple installed system
- Hooks onto the top of any upright (Outrigger & Longspan) or in front of back panels on top of the gondola system

| Part No.  | Bay Length                                     | Sign Height |
|-----------|--|-------------|
| AP40751MB | 914mm (Use on 914mm Gondolas or Longspan bays) | 100mm       |
| AP40752MB | 914mm (Use on 914mm Gondolas or Longspan bays) | 300mm       |
| AP40754MB | 1000mm (use on 1000mm Gondola bays)            | 100mm       |
| AP40755MB | 1230mm (use on 1200mm Longspan bays)           | 100mm       |

## PREMIUM WALL DISPLAYS

### CROSSBAR FOR ANGLED BOTTLE DISPLAY

- Crossbar with angled bottle holders for promotional or premium wine display
- Hooks into shelving uprights.
- Crossbar available in 2 depths, depending on where you want to display your premium bottles. When using the deeper crossbar, you can use a 300mm deep shelf above for more product - this will give you premium display with backup stock above.
- Bottle holders (purchased individually) are removable so that you can spread out the display.

**AP5131B**

| Part No. | Dimensions                           |
|----------|--------------------------------------|
| AP40184  | 914mm x 160mm (D)                    |
| AP5226   | 914mm x 300mm (D)                    |
| AP5131   | Sloping Bottle Holder - Black finish |

## PREMIUM WALL DISPLAYS

### TIMBER BOX FOR ANGLED BOTTLE DISPLAY

- 8-compartment fabricated box in melamine or plywood finishes.
- Fits into standard shelving uprights using 470mm shelf brackets and 'U' channels mounted underneath.

| Part No.                       | Dimensions (L x D x H)   |
|--------------------------------|--|
| AP40748                        | 914mm x 400mm x 55mm Includes bracket set for mounting to uprights |
| Specify melamine/plywood color |  |

### METAL SUPPORT FOR ANGLED BOTTLE DISPLAY

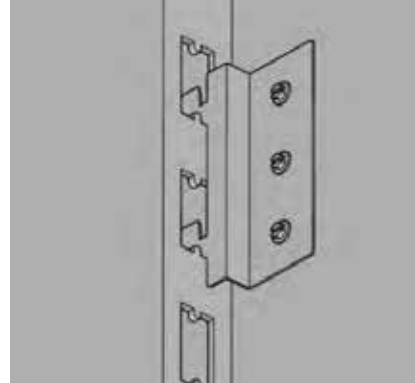

- Steel frame with melamine or plywood insert with bottle cutouts.
- Fits into standard shelving uprights.
- Bottles are supported by a shaped acrylic rear riser to display bottles at the best presentation angle.
- Angled front panel allows for storytelling.
- Lower angled front for attaching adhesive data strip for pricing information.

| Part No.                       | Dimensions (L x D x H) |
|--------------------------------|------------------------|
| AP40749                        | 914mm x 400mm x 300mm  |
| Specify melamine/plywood color |                        |

## WALL SHELVING ACCESSORIES

## GLASS DOOR SECURITY WALL SHELVING

### GLASS DOOR SETS FOR OUTRIGGER WALL BAYS

- Many liquor retailers are enjoying the benefits of prominently displaying their valuable spirits with the peace-of-mind of knowing that they will be secure from opportunistic theft.
- Glass sliding door kits including top and bottom beams and glass doors with track attached for ease of installation.
- Lockable doors slide easily on a quality aluminium roller track system.
- Designed to be easily installed on new or existing S-MART outrigger wall bays.
- You can select from our range of standard glass doors heights. Additional sets can be customised to secure your entire display.
- Order melamine end panels separately to block off the end of the shelving run.

## GLASS DOOR SECURITY WALL SHELVING

1550m

We have developed the following standard door heights to best suit the display of bottles (Door sizes are internal opening height):

### 1550MM STANDARD WALL BAY

- Use in standard wall bay, provides security for 4 shelves, leaving base shelf open

| Part No.   | Dimensions                 | Price      |
|------------|----------------------------|------------|
| AP40769/15 | Set of glass doors & beams | 914mm bay  |
| AP9769/15  | Set of glass doors & beams | 1000mm bay |

### 1950MM STANDARD WALL BAY

- Use in standard wall bay, provides security for 5 shelves

| Part No.   | Dimensions                 | Price      |
|------------|----------------------------|------------|
| AP40769/19 | Set of glass doors & beams | 914mm bay  |
| AP9769/19  | Set of glass doors & beams | 1000mm bay |

1950m

800m

### 2600MM STANDARD WALL BAY

- Double set of sliding doors on extended height wall bays - provides full security for 6 shelves, incorporates intermediate horizontal beam above lower 2 shelves

| Part No.   | Dimensions                 | Price      |
|------------|----------------------------|------------|
| AP40769/26 | Set of glass doors & beams | 914mm bay  |
| AP9769/26  | Set of glass doors & beams | 1000mm bay |

800m

### 800MM STANDARD WALL BAY

- Provides security for 2 shelves

| Part No.   | Dimensions                 | Price      |
|------------|----------------------------|------------|
| AP40769/08 | Set of glass doors & beams | 914mm bay  |
| AP9769/08  | Set of glass doors & beams | 1000mm bay |

## DESIGN CONSIDERATIONS

Melamine end panels can be provided to close off the ends of glass door bays (see next page).

If you wish to stop your glass door bays in the middle of a wall run, you can close off the end so that access can't be made into the security area from

the open shelving by either of the following methods:

- 1) Use full melamine end panel. For this option, you will need to begin another Starter Bay adjacent to the security section.
- 2) Purchase 2 Outrigger Shelf Brackets per shelf level and use these to restrict access.

## ADDITIONAL SHELF COMPONENTS

- Additional shelves, brackets and data strips for shelving bays

| Part No.            | Length | Depth |
|---------------------|--------|-------|
| <b>Wire Shelves</b> |        |       |
| AP40803             | 914mm  | 300mm |
| AP40804             | 914mm  | 370mm |
| AP40805             | 914mm  | 470mm |
| AP40806             | 914mm  | 570mm |

| AP40112                          | 300mm | 2-lug |
| AP40114                          | 370mm | 2-lug |
| AP40118                          | 470mm | 3-lug |
| AP40123                          | 570mm | 3-lug |

|                                 |       |  |
|---------------------------------|-------|--|
| <b>Outrigger Shelf Brackets</b> |       |  |
| AP40174                         | 370mm |  |
| AP40175                         | 470mm |  |
| AP40176                         | 570mm |  |

### CLIP ON DATA STRIP

- Leaves no messy adhesive residue - simply clips on to the front lip of S-MART shelves
- Includes "gripper" feature to allow you to simply add promotional tickets
- Black back with clear front to protect price tickets and allow them to be simply changed.
- Compatible with many types of coolroom wire shelves

| Part No.     | Length x Label Height |
|--------------|-----------------------|
| AP40421/09BL | 900mm(W) x 32mm(H)    |
| AP40422/09BL | 900mm(W) x 39mm(H)    |
| AP40422/10BL | 990mm(W) x 39mm(H)    |
| AP40422/12BL | 1240mm(W) x 39mm(H)   |

### ADHESIVE DATA STRIP

- Includes "gripper" feature to allow you to simply add promotional tickets
- Black back with clear front to protect price tickets and allow them to be simply changed
- Use for MPR System or any other situation without front shelf lip

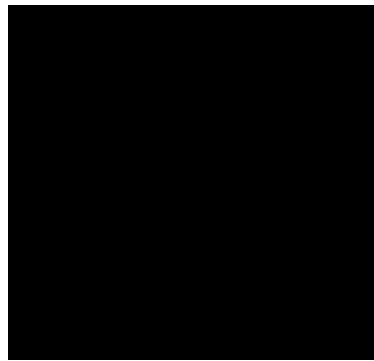

| Part No.     | Length x Label Height |
|--------------|-----------------------|
| AP587-39BL   | 914mm(W) x 39mm(H)    |
| AP588-39BL   | 1200mm(W) x 39mm(H)   |
| AP40890BL ** | 2000mm(W) x 39mm(H)   |

\*\* This item has no "gripper" - design for use with radius shelves

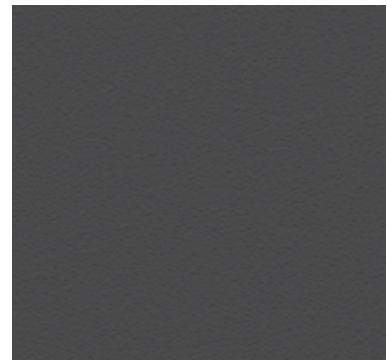

## STANDARD MELAMINE FINISHES

These samples show a selection of commonly used LAMINEX brand melamine colours to suit most modern decors and to achieve your distinctive atmosphere.

Of course, being Australian manufacturers, we can also produce your requirements in any board colour from other suppliers.

Black (BK)

Charcoal (CHC)

Raw Birchply (PLY)

Young Beech (MAP)

Sublime Teak (TEA)

Natural Walnut (NWA)

Danish Walnut (DWA)

Greystone (GRS)

The S-MART Long-Span shelving system provides a high-capacity solution for bulky merchandise, while its refined and simple lines make it a perfect fit in the retail environment.

At home in a “front-of house” environment as well as the demands of bulk stock in a coolroom situation.

# LONG - SPAN SHELVING

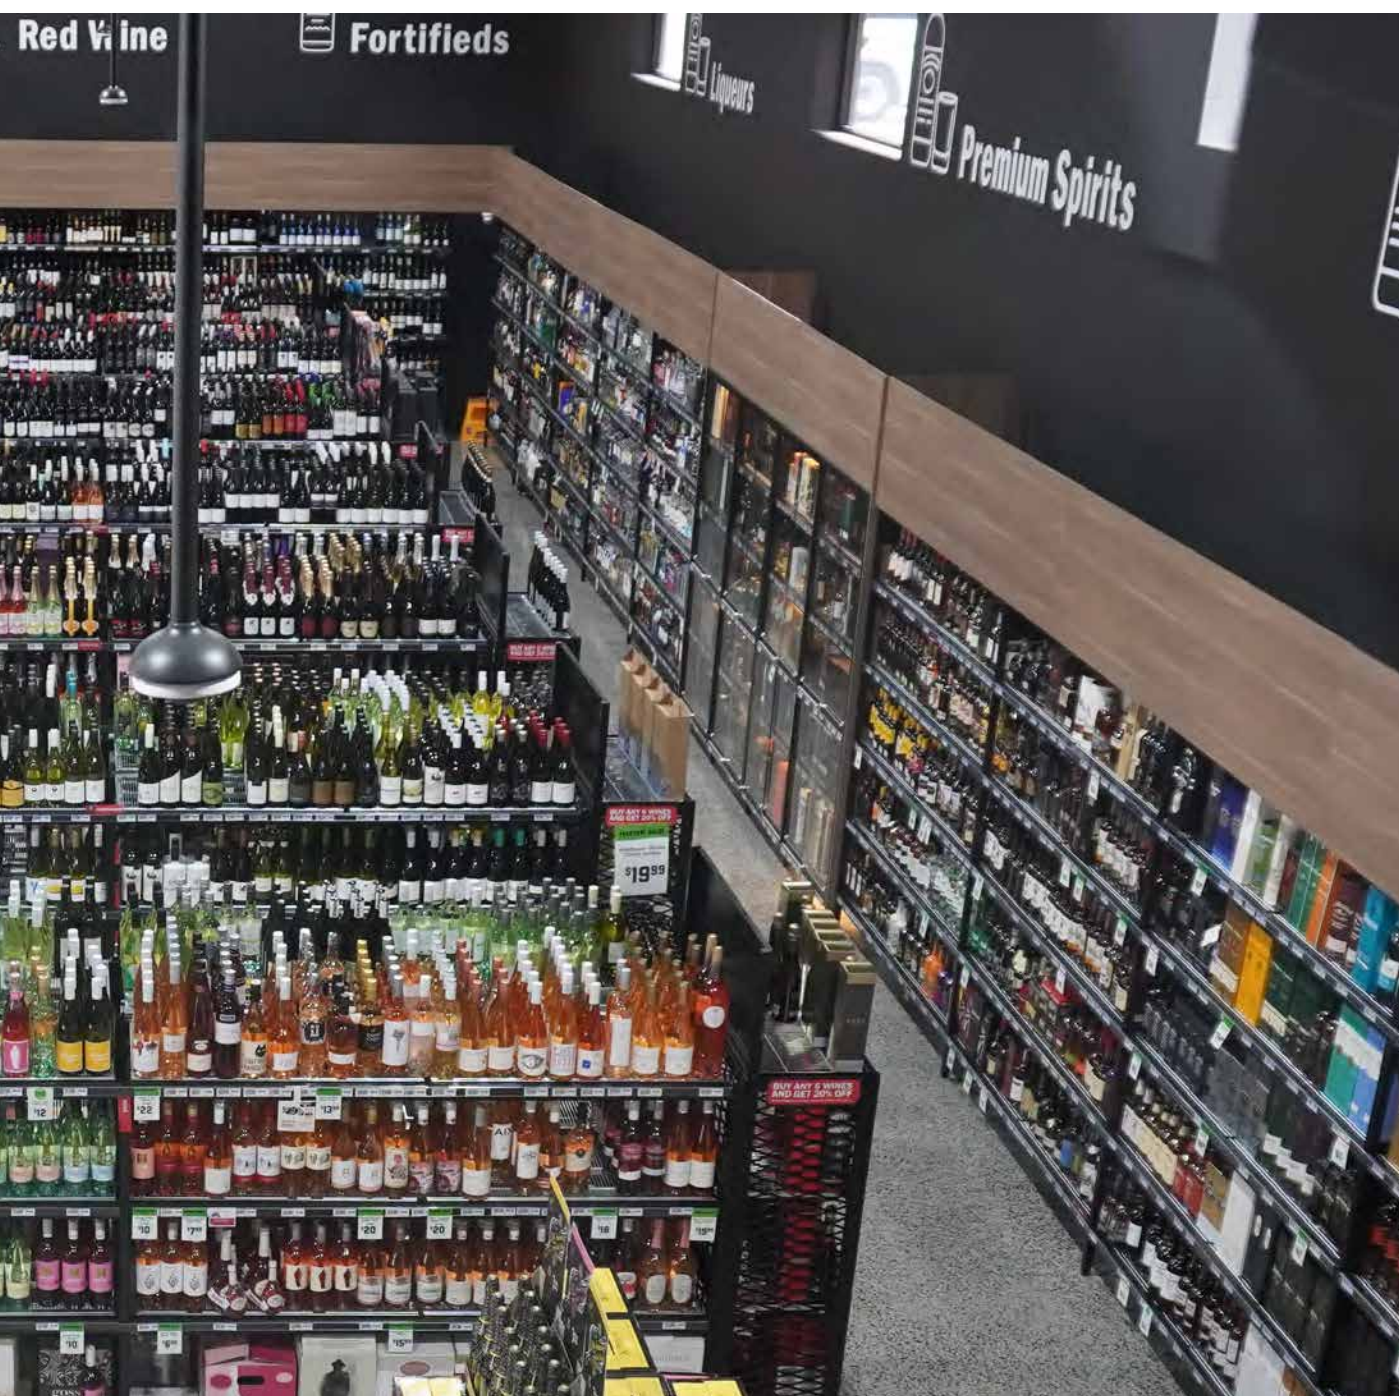

Standard End Frames & Beams  
Timber Infills  
Wire Infills  
Slat Panels

## S-MART LONG-SPAN SHELVING

- The S-Mart Long Span system is the very essence of simplicity, allowing for fast installation for small or large installations.
- Based on welded end frames and heavy duty welded shelving beams, the system provides ultimate strength while maintaining the quality appearance befitting your retail store.
- You can select from an economical timber infill shelf or a wire shelf. These are ideal for coolroom use.

- The S-Mart Long Span system is the system of choice to maximise your coolroom merchandising - the heavy-duty beams allow for storage of multiple cartons, while the frame and wire shelves are resistant to the possible condensation from the refrigerated environment.
- You can take advantage of ADP's manufacturing capabilities to incorporate some of the features you will see in the image below:
  - Melamine header and end panels.
  - Glass door security bays
  - Feature end panels from expanded steel mesh.

## S-MART LONGSPAN BAYS - COMPONENTS

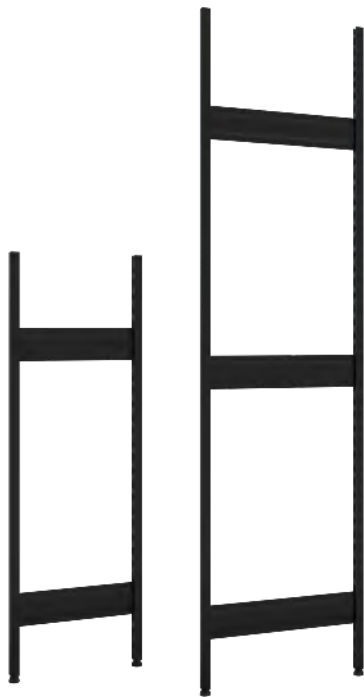

- 1 Welded metal End Frame
- 2 Shelf Beams - 2 required per shelf level.
- 3 Melamine Shelf. Standard finish - BLACK melamine.
- 4 Wire Shelf. Standard finish - Bright ZINC coated.

You require 2 x Upright Frames for initial bay.  
Adjoining bays can be added on using common  
Upright Frame

## LONGSPAN WALL BAYS - TIMBER INFILLS

### UPRIGHT FRAMES

- Select from our range of standard frame sizes designed to meet the most common requirements in a range of industries.
- Fully welded construction with levelling feet.
- You can also order frames manufactured in a custom size up to 900mm wide. Please enquire.

| Part No.                | Overall Width | Height |
|-------------------------|---------------|--------|
| <b>400mm Wide Frame</b> |               |        |
| AP40982/22MB            | 400mm         | 2200mm |
| <b>500mm Wide Frame</b> |               |        |
| AP40980/15MBK           | 500mm         | 1500mm |
| AP4098024MBK            | 500mm         | 2400mm |
| <b>600mm Wide Frame</b> |               |        |
| AP40982/15MBK           | 600mm         | 1500mm |
| AP40982/24BK            | 600mm         | 2400mm |
| <b>750mm Wide Frame</b> |               |        |
| AP40983/24MBK           | 750mm         | 2400mm |

### SHELVING BEAMS

- 50 x 30mm rectangular steel tube with angle for shelf to rest.
- Beams can be manufactured to suit a particular bay length. Please enquire.

| Part No.      | Nominal Length | Actual Bay Length* |
|---------------|----------------|--------------------|
| AP40950/09MBK | 900mm          | 916mm              |
| AP40950/12MBK | 1200mm         | 1241mm             |
| AP40950/15MBK | 1500mm         | 1520mm             |
| AP40950/18MBK | 1800mm         | 1830mm             |
| AP40980/24MBK | 2400mm         | 2400mm             |

\*This is the "Centre" dimension of the upright frames. To get an overall length of a single bay or run of bays, add 15mm onto each end.

## WIRE SHELVES

- Re-inforced wire shelves with close wire spacing to support bottles.
- Long-lasting bright zinc finish.
- Use the combination of lengths to suit your selected bay length.

| Part No.         | Shelf Length | Actual Shelf Depth |
|------------------|--------------|--------------------|
| 400mm Wide Frame |              |                    |

## SHELF LIGHTING

### LED SHELF LIGHTING SYSTEM

- Shelf illumination is a sure way to increase merchandise sales by presentation of your products in the best possible light
- You can benefit from our years of experience in this field, providing shelf lighting solutions that are easily installed as “plug & play” without any requirement for electrical contractors
- You get to select from our wide range of systems that provide a complete and universal solution, all based on a common luminaire with a selection of power sources and feed-in tracks that provide full flexibility for shelf changes without cable re-routing.
- Premium 24V system for reliability in continuous use
- We are pleased to offer 3 systems to make your shelf illumination project simple to install with a great end result that will maximize your Return on investment.
- INWI Woodline (Self-adhesive)
- INWI Magline (Magnetic)
- INWI Standard (Concealed within uprights)

### NO LIGHTING

### WITH SHELF LIGHTING

## SHELF LIGHTING

### LED SNAP FRAME - OUTRIGGER SHELVING

- Premium quality LED light strip in aluminium casing with clear protective cover
- Supplied with lead and universal Mini-plug to attach to any of our power rail systems
- Supplied with super-strong rare earth block magnets that will fix securely to metal & wire shelves. Magnets are supplied loose and slide into retaining channel
- Cable lengths - 200mm (for Outrigger system using concealed track) or 700mm (for running cable to rear of shelf - see Cable Routing Magnet below). Custom lengths of up to 1000mm are available to special order).
- Standard LED specifications - 4000K/7.2W/mtr (Other colours & intensities are available to order)

| Part No.    | Led Length | Cable Length | To suite shelf lengths |
|-------------|------------|--------------|------------------------|
| AP40854/06S | 570mm      | 200mm        | 600mm x 665mm          |
| AP40854/06L | 570mm      | 700mm        | 600mm x 665mm          |
| AP40854/09S | 870mm      | 200mm        | 914mm x 1000mm         |
| AP40854/09L | 870mm      | 700mm        | 914mm x 1000mm         |
| AP40854/12S | 1170mm     | 200mm        | 1200mm x 1250mm        |
| AP40854/12L | 1170mm     | 700mm        | 1200mm x 1250mm        |

### CABLE ROUTING MAGNET

- Use to support cables on shelf brackets
- Size - 13 x 8mm
- AP40873BK

### HOW MANY LED DRIVERS WILL I NEED? SIMPLE, CALCULATE THE POWER REQUIREMENT USING THE FOLLOWING FORMULA:

- Power (per shelf) = Actual length of LED strip (mtrs) x Watts/mtr x 1.15 (15% safety margin)
- Example (AP40854/09) = 0.83m x 7.2 x 1.15 = 6.87
- Using a 150VA Driver, you will safely be able to power 22 light strips (150 / 6.87)

## SHELF LIGHTING

### WOODLINE - SELF ADHESIVE ELECTRIFIED TRACK

- The WOODLINE system opens up some amazing opportunities for interchangeable illumination
- Ultra-thin profile fits easily between back panels & shelves - only 3mm thick overall
- Simply adheres to any smooth surface - timber, metal or glass. The Woodplug fitting clips securely onto the track, anywhere along the length and receives the Mini-plug fitting from the LED light.
- Supplied with 1.0mtr lead to connect with power supply.

INWI WOODLINE

#### (1) WOODLINE ELECTRIFIED TRACK

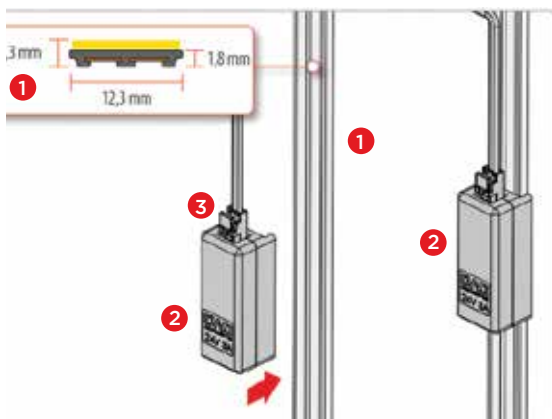

AP40880/1.5BK

- Length - 1.5mtrs
- Colour - Black
- Cable length - 1 mtr
- Operating current - 8A (max)
- Power rating (24V operation) - max. 192W

#### (2) WOODPLUG

AP40881BK

- Snaps securely onto the Woodline track, anywhere along the length.
- Accepts Mini-plug fitting on LED strips (3).

## SHELF LIGHTING

### MAGLINE - MAGNETIC ELECTRIFIED TRACK

- The MAGLINE system provides for interchangeable illumination using the surface-mounted profile. Works perfectly on metal back panels.
- Ultra-thin profile fits easily between back panels & shelves - only 3mm thick overall.
- Simply attaches to any metal surface. The MAGLINE fitting clips securely onto the track, anywhere along the length and receives the Mini-plug fitting from the LED light.
- Supplied with 1.0mtr lead to connect with power supply.
- Stocked in Black. Also available in White or Grey.

#### (1) MAGLINE ELECTRIFIED TRACK

AP40870/2.0BK

- Length - 1.5mtrs
- Colour - Black
- Cable length - 1 mtr
- Operating current - 8A (max)
- Power rating (24V operation) - max. 192W

#### (2) MAGLINE PLUG

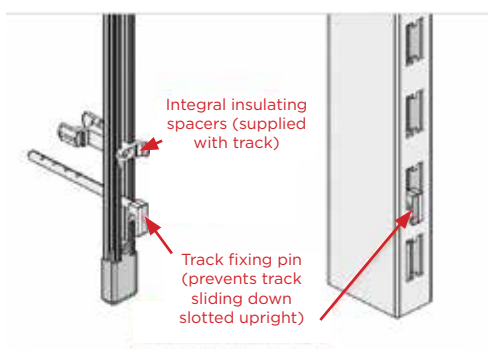

AP40871BK

### MAGLINE PLUG

- Snaps securely onto the Magline track, anywhere along the length.
- Accepts Mini-plug fitting on LED strips (3).

## SHELF LIGHTING

### INWI STANDARD - CONCEALED ELECTRIFIED TRACK

- The INWI STANDARD system is surely one of the most innovative solutions for interchangeable shelf illumination. It offers all the benefits of concealed wiring and an ingenious plug system that inserts through the tubing slots.
- Various profiles are available with different spacers to fit into rectangular & square tube. Supplied with fixing pin to lock onto the slot in the tubing and prevent the track sliding down.
- Available in single or double-sided versions - double-sided provides the ability to feed both sides of a gondola off a central upright.

#### (1) INWI STANDARD ELECTRIFIED TRACK

| Part No. | Length |
|----------|--------|
|----------|--------|

##### Suit 30 x 30mm tubing:

|            |              |        |
|------------|--------------|--------|
| AP40861/2M | Single-sided | 2000mm |
|------------|--------------|--------|

##### Suit 80 x 30mm tubing:

|            |              |        |
|------------|--------------|--------|
| AP40860/2M | Single-sided | 2000mm |
|------------|--------------|--------|

|            |              |        |
|------------|--------------|--------|
| AP40862/1M | Double-sided | 1000mm |
|------------|--------------|--------|

#### (2) INWI STANDARD PLUG

- Fits securely through slots in the tube and into the track inside.
- Accepts Mini-plug fitting on LED strips (3).

##### Suit 30 x 30mm tubing:

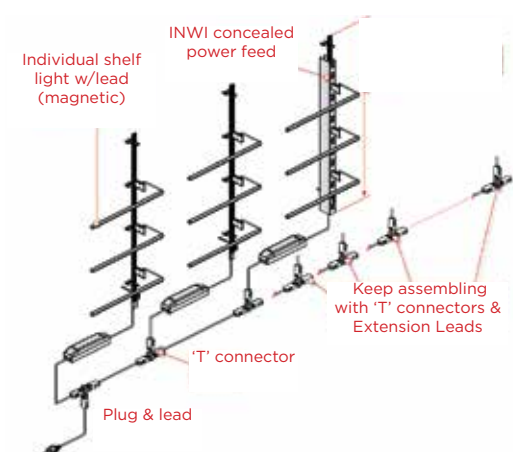

AP40869

##### Suit 80 x 30mm tubing:

## SHELF LIGHTING

### POWER SUPPLIES & CONNECTION LEADS

- The ADP range of power supplies & accessories allows you to connect a complete shelf lighting system without any need for specialist electricians - simply plug into a standard GPO and connect together.
- The flat connectors can be easily fed underneath base legs to join onto the next section.
- Connectors clip together with positive retaining clip and leads incorporate strain relief connections.

#### PLUG & LEAD

- 3-pin plug with 2 metre lead and connector plug

Part No.

**AP7971**

#### EXTENSION LEAD

- 2 metre cable with male & female connector plugs

Part No.

**AP7972**

#### LOW VOLTAGE SPLITTERS

- Allows you to run multiple power tracks off one LED driver

Part No.

**AP7979/2**      2-outlet

**AP7979/7**      7-outlet

#### 'T' CONNECTOR

- Allows you to branch off to drivers and continue to the next driver with an Extension Lead

Part No.

**AP7973**

#### POWER SUPPLIES

- Premium quality LED drivers including fully-assembled inlet & outlet cables to simply join together with any of the track systems

Part No.      Capacity (w)

**AP7970/075**      75w

**AP7970/100**      100w

**AP7970/150**      150w

**AP7970/200**      200w

Showcase your quality Wine,  
Liquor & merchandise for  
maximum effect within your  
store floorspace.

Select from a range of  
freestanding displays that  
provide some interesting,  
functional and versatile  
product presentation  
techniques that inspire the  
shopper.

Custom Display Units

## S-MART TABLE

---

### S-MART TABLE SYSTEM

The S-MART Table System from ADP provides a truly modular and flexible table presentation system. It has a modern but timeless appearance due to its understated design based on a simple and modular metal frame and your selection of top materials and accessories.

Tables can be used as a stand-alone display or in a continuous line. As a stand-alone display, they provide the ideal vehicle for in-store seasonal promotions or cross-merchandising.

## S-MART TABLE

---

Tables can be used as a stand-alone display or in a continuous line. As a stand-alone display, they provide the ideal vehicle for in-store seasonal promotions or cross-merchandising.

Simple design with a slotted steel post and various connecting bars that can be combined in a range of configurations - you can make up square tables or longer, narrow tables depending on available space and design requirements.

You get to select from a range of accessories that provide some interesting, functional and versatile product presentation techniques. The slotted corner posts allow for adjustable shelf positioning around all 4 sides of the unit. You can even use standard S-MART metal or wire shelves & brackets, with our range of fences & dividers.

Ask our design team to provide a graphics programme where you can incorporate overhead signage or side-mounted panels with full colour artwork. Use the S-MART Table System to assist you in creating your store's distinct atmosphere.

You can even increase the height of the display with an overhead frame where you can add additional merchandise or decorative elements.

**S-MART Table System - it's YOUR choice!**

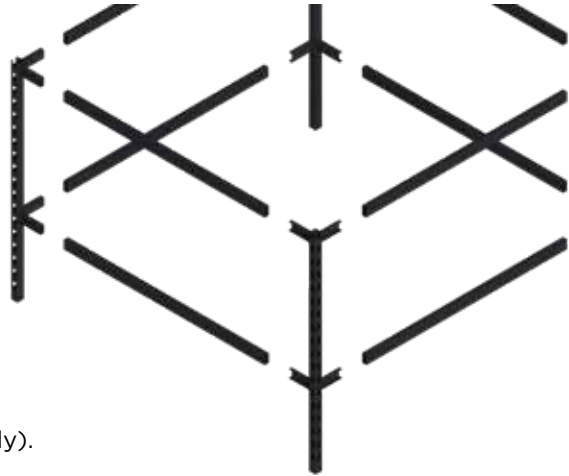

## S-MART TABLE - COMPONENTS

### LONGSPAN FLOOR BAYS - TIMBER INFILLS

#### TABLE LEG

- Set of 4 pieces - slotted on 2 outside faces.
- Tubing - 30 x 30mm
- Height - 910mm (can be trimmed to desired length)

| Part No. | Dimensions  |
|----------|---|
| AP       | Available in Matt Black (MB) or Gloss White (GLW) |

#### CROSS TUBES

- 40 x 20mm tubing. Attach to stubs on table legs.
- 2 x cross tubes required per side (order individually).
- Allows for many table configurations

| Item No.   | Tube Length | Overall frame dimension |
|------------|-------------|-------------------------|
| AP40036/06 | 570mm       | 630mm                   |
| AP40035/07 | 635mm       | 695mm                   |
| AP40035/09 | 885mm       | 945mm                   |
| AP40035/10 | 970mm       | 1030mm                  |
| AP40035/12 | 1170mm      | 1230mm                  |

Available in Matt Black (MB) or Gloss White (GLW).

#### TOP FRAME

- Manufactured from 30 x 30mm tubing, slotted on 2 opposite faces.
- Mounts to Table Top.
- May be used with standard shelves, signage, etc

## S-MART TABLE - COMPONENTS

### THREADED CAP & LEVELLER

- Sold in individual sets - 1 x cap + 1 x leveller

Part No.

AP40000

### HEAVY-DUTY CASTERS

- Sold individually. Select standard or braking.
- Include expanding fitting to fit Table Leg.
- Overall caster height - 100mm.

| Item No. | Tube Length            |
|----------|------------------------|
| AP       | Standard swivel caster |
| AP       | Braking caster         |

### TABLE TOPS

- Tabletops are made-to-order from your selection of materials - from melamines to plywoods in clear or stained finishes.
- Double-thickness material around edges - serves to locate the top in the frame.
- Top dimensions = Frame dimensions + 150mm.

### LOWER SHELF

- Designed to fit onto lower rail, with notched corners to fit around table legs.

## LIQUOR STANDS

### ROUND DISPLAY WINE UNITS

## PREMIUM WINE UNIT

- The Premium Wine Unit by ADP offers you an opportunity to showcase your quality wine merchandise to maximum effect.
- Available in a large range of options from basic components that provide you with exclusivity and a stunning central display that will become a focal point in your store.
- Designed as a fully functional unit that provides a highly compact display and large volume of stock, the Premium Wine Unit will ensure that your return-on-investment is expedited.
- The base frame of the unit is assembled from standard metal shelving components that provide a durable system that is easily configured to your available area within the store.

## CUSTOMIZATION OPTIONS

- Standard pigeon-hole module with 3 x 3 compartments will fit within a standard 1.0mtr bay. Each compartment will hold a case of wine, either vertical or lying flat. Shelves are adjustable for different layouts
- Radius End Shelves - provide a stunning bottle display that aids customer movement through the store.
- Choice of benchtop materials at a convenient height for customer engagement while wine tasting.
- Adjustable height bars with sloping bottle holders to provide a faceout display with the label of the bottle at a perfect height for visibility.
- Side modules are interchangeable with lockable showcase modules that can be provided with horizontal glass shelves or angled bottle displays. These have sliding glass doors and can be fitted with LED strip lighting to provide a standout display.

## BAR SHELVING - OLD COURTHOUSE, FREMANTLE,

In addition to our comprehensive range of merchandise shelving, you can take advantage of the large range of display shelving and systems.

The Old Courthouse is a project in Fremantle, W.A. involving the converting of a heritage building into a contemporary bar and restaurant. The architect brief was for a minimalist, suspended shelving system able to take a range of spirits and cocktails in a functional and attractive configuration.

The result is stunning – call our design team today to assist with your project.

ADP has simplified the design of the liquor counter into a series of standard modules configured to suit your specific requirements.

Minimize store re-fit downtime - fully assembled modules are delivered to your store ready for simple site installation.

# LIQUOR COUNTERS

Overview  
Modules  
Options

## LIQUOR COUNTER

- The Counter System by ADP is specifically designed for the requirements of a small to medium liquor store operation.
- Totally modular construction allows you to select the various units that you require and place them in a configuration to meet your needs and available space. Length of individual modules can be varied to your specific needs.
- Choose from basic open shelving modules to lockable drawers for cigarette storage or cabinets with glass front display for miniatures or valuable merchandise.
- Once you have your layout established, we program the sizing and provide all of the remaining components - front panels, counter tops and base plinths - to bring your project together.
- Modules are delivered fully assembled, with a custom-manufactured ladder frame. This allows for simple site installation while providing open space underneath the cabinet to run electrical cables, etc...

## LIQUOR COUNTER

### HERE ARE THE SIMPLE STEPS TO ORDERING YOUR LIQUOR COUNTER:

1. Send through your required counter layout with the different modules.
2. Select the cabinet colour. Standard colour - **BLACK melamine**.
3. Select the top finish. Standard finish Grey-patterned hard wearing vinyl with **3mm thick aluminium edging**.
4. Select the plinth finish. Standard finish - **BLACK**
5. Select additional specific features required. For example, we can provide double-action swing doors to clearly delineate the counter area while providing easy access to customer service staff.
6. You can select from the standard plain front or use this area to provide a fully-functional selling area with shelving or hangsell for cross-merchandising opportunities.

### COUNTER COMPONENTS:

- 1 Cupboard module (includes open top shelf for cash drawer, paper bags, etc...)
- 2 Bank of 3 drawers, with single lock. Includes open top shelf.
- 3 Corner shelving module, with open adjustable shelves.
- 4 Optional double-action swing doors.
- 5 Counter top - choose from our standard heavy-duty flooring vinyl top or selected laminate finishes

## PREMIUM WINE UNIT

### OPEN SHELVING MODULE

- Open Fixed top shelf - 150mm opening
- Adjustable shelves x 2 off
- Colour - BLACK melamine
- Includes allowance for front panel as required.
- Cabinet Height - 850mm
- Overall Height (incl. plinth & top) - 980mm
- Cabinet Depth - to specification.

| Part No.  | Length       |
|-----------|--------------|
| AP9724/06 | Up to 600mm  |
| AP9724/09 | Up to 900mm  |
| AP9724/12 | Up to 1200mm |

### HINGED DOOR CUPBOARD MODULE

- Open Fixed top shelf - 150mm opening
- Pair of hinged doors to cupboard section - 1 x adjustable internal shelf
- Colour - BLACK melamine
- Includes allowance for front panel as required.
- Cabinet Height - 850mm
- Overall Height (incl. plinth & top) - 980mm
- Cabinet Depth - to specification.

| Part No.  | Length       |
|-----------|--------------|
| AP9720/06 | Up to 600mm  |
| AP9720/09 | Up to 900mm  |
| AP9720/12 | Up to 1200mm |

### 3-DRAWER MODULE

- Open fixed top shelf - 150mm opening
- Bank of 3 drawers with central locking to lock all drawers with 1 key
- Colour - BLACK melamine
- Includes allowance for front panel as required.
- Cabinet Height - 850mm/
- Overall Height (incl. plinth & top) - 980mm
- Cabinet Depth - to specification
- Optional divider & pusher system for secure cigarette storage.

| Part No.  | Length      |
|-----------|-------------|
| AP9721/06 | Up to 600mm |
| AP9721/09 | Up to 900mm |

## PREMIUM WINE UNIT

### CORNER OPEN SHELVING MODULE

- Adjustable shelves x 2 off
- Colour - BLACK melamine
- Includes allowance for **decorative** front panel as required.
- Cabinet Height - 850mm
- Overall Counter Height (incl. plinth & top)- 980mm
- Cabinet Depth - **to specification**

| Part No. | Length      |
|----------|-------------|
| AP9725   | 900 X 900mm |

### SHOWCASE MODULE

The showcase module presents a simple way of securely displaying high-value merchandise in an appealing way at the point-of-sale. Ideal for miniatures & giftware or a premium product feature.

- Glass front module with 2 x adjustable glass shelves behind.
- LED strip lighting up 2 front sides & across top.
- Cabinet colour - BLACK melamine
- Sliding, lockable doors behind
- Cabinet Height - 850mm
- Overall Counter Height (incl. plinth & top)- 980mm
- Cabinet Depth - 580mm

| Part No.  | Length       |
|-----------|--------------|
| AP9723/09 | Up to 900mm  |
| AP9723/12 | Up to 1200mm |

### DISPLAY FRONT SHELVING

Turn your counter into an impulse selling machine with our front merchandising panel options. Nominate your selling area and we can incorporate the recessed Display Front system with an overhanging top.

Your typical Display Front Shelving area includes the following:

- Slatwall display panel front with grooves at 50mm centres for maximum merchandising flexibility.
- Three levels of melamine shelves with clear acrylic front retaining lips.
- Adjustable shelf brackets that allow for shelves to be flat or sloping.

| Part No.  | Length       |
|-----------|--------------|
| AP9735/12 | Up to 1200mm |
| AP9735/24 | Up to 2400mm |

Selling premium wine is rewarding, both for the experience and the rewards it brings.

Your selling is made easier with the range of Premium Wine Furniture developed by ADP specifically for retailers.

# PREMIUM WINE ROOM

Overview  
Modules  
Installation Examples

## PREMIUM WINE ROOM

### An exclusive line of modular fixtures for premium wine & spirits departments!

- The market is there for a premium wine & spirit experience but the cost and implementation is daunting for the retail operator. At ADP, we recognize this opportunity for the retailers and have developed a range of standard design premium displays that can be customized to suit your particular situation.
- Locally manufactured to fit into your required space and selected display configuration, these units provide you with a large range of flexible options to grow your premium high profit margin business.
- Select from the full range of melamine finishes to suit your decor and create your experience.
- You can select from open shelving in glass or melamine (ideal for enclosed wine rooms) or fully-secure glass door cabinets, storage drawers, bench areas for wine tasting or sloping display shelves. All available with our LED lighting system to provide reliable and even illumination with "plug & play" flexibility
- All units feature concealed slotted stripping to provide full display flexibility.

## PREMIUM WINE MODULES

All units are supplied with a 100mm high "ladder-frame" plinth according to the design layout provided. NB. Unit heights specified on shelving and base units include 100mm plinth.

### BASIC SHELVING MODULE

#### INCLUDES

- Fixed open base shelf
- 3 levels adjustable melamine shelving
- Shelves & top fitted with recessed LED strip lighting on electrified track.

| Item No. | L x D x H           |
|----------|---------------------|
| AP9750   | 1200 x 500 x 2200mm |

### GLASS SHELVING MODULE

#### INCLUDES

- Base storage drawer
- 3 levels adjustable 8mm thick glass shelving
- Shelves & top fitted with LED strip lighting on electrified track.

| Item No. | L x D x H           |
|----------|---------------------|
| AP9755   | 1200 x 500 x 2200mm |

### SECURITY SHELVING MODULE WITH BASE DRAWER

#### INCLUDES

- Glass, sliding lockable doors.
- Base storage drawer
- 3 levels adjustable melamine shelving
- Shelves & top fitted with recessed LED strip lighting on electrified track.

| Item No. | L x D x H           |
|----------|---------------------|
| AP9760   | 1200 x 500 x 2200mm |

### SECURITY SHELVING MODULE WITH BASE DRAWER

#### INCLUDES

- Glass hinged lockable doors for a more complete frameless appearance.
- Base storage drawer
- 3 levels adjustable 8mm thick glass shelving
- Shelves & top fitted with recessed LED strip lighting on electrified track.

| Item No. | L x D x H           |
|----------|---------------------|
| AP9765   | 1200 x 500 x 2200mm |

### SECURITY DISPLAY MODULE WITH BASE DRAWER

#### INCLUDES

- Glass hinged lockable doors for a more complete frameless appearance.
- Base storage drawer
- 5 off sloping bottle shelves in matching melamine finish.
- Shelves & top fitted with recessed LED strip lighting on electrified track.

| Item No. | L x D x H           |
|----------|---------------------|
| AP9766   | 1200 x 500 x 2200mm |

### CORNER SHELVING MODULE

#### INCLUDES

- Fixed open base shelf
- 3 levels adjustable melamine shelving
- Shelves & top fitted with recessed LED strip lighting on electrified track
- Provides full usage of corners with full merchandising functionality.

| Item No. | L x D x H           |
|----------|---------------------|
| AP9770   | 1200 x 500 x 2200mm |

## PREMIUM WINE MODULES

### BASE PIGEON-HOLE MODULE

#### INCLUDES

- 3 vertical compartments with adjustable shelves allows for bottles to be displayed vertically or horizontally.
- Designed to sit under benchtop.

| Item No. | L x D x H          |
|----------|--------------------|
| AP9780   | 1200 x 500 x 950mm |

### BASE CUPBOARD MODULE

#### INCLUDES

- 2-door cupboard storage module.
- Designed to sit under benchtop.

| Item No. | L x D x H          |
|----------|--------------------|
| AP9782   | 1200 x 500 x 950mm |

### MELAMINE END PANEL

- 18mm thick plain melamine end panels are required to finish off visible ends

### WALL PIGEON-HOLE MODULE

#### INCLUDES

- Wall-mounted unit with vertical compartments with adjustable shelves, allowing for vertical or horizontal bottle display.

| Item No. | L x D x H          |
|----------|--------------------|
| AP9785   | 1200 x 300 x 700mm |

### WALL FRAME MODULE

#### INCLUDES

- Another way to create an interesting display with a display of vertical bottles surrounded on 4 sides by a single row of horizontal "cork-out" bottles.

| Item No. | L x D x H          |
|----------|--------------------|
| AP9786   | 1200 x 300 x 700mm |

| Item No. | Width x Height |
|----------|----------------|
| AP9740   | 510 x 2200mm   |

### LAMINATED BENCHTOP

- Wall-mounted unit with vertical compartments with adjustable shelves, allowing for vertical or horizontal bottle display.
- Heavy-duty 33mm thick material with durable high-pressure laminate top.

| Item No. | Length       | Depth |
|----------|--------------|-------|
| AP9794   | up to 3600mm | 650mm |

### OVERHEAD LIGHTING PANEL

- Horizontal panel with recessed LED strip provides illumination for both above & below wall-mounted units. (LED light strip is powered by drilling through into adjoining unit to access electrified track).

| Item No. | Length | Depth |
|----------|--------|-------|
| AP9795   | 2400mm | 300mm |
| AP9796   | 2400mm | 500mm |

## PREMIUM WINE UNIT

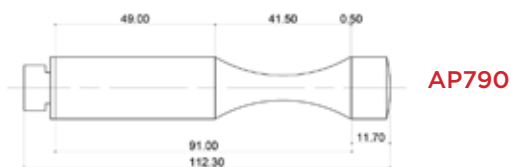

### WINE PRONGS

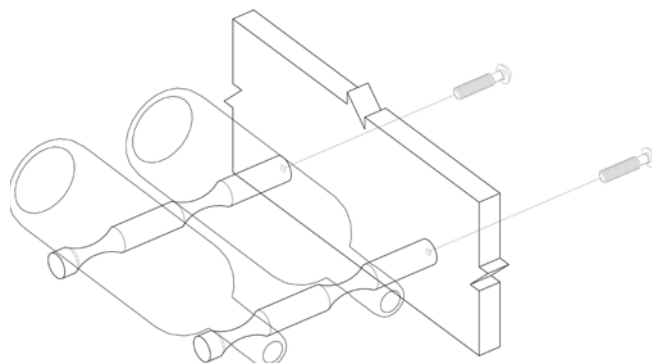

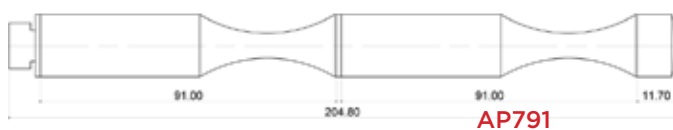

- Wine Prongs present an amazing opportunity to create a unique method of displaying premium wines horizontally to create a boutique atmosphere.
- Available in “Label-Forward” or “Cork-Forward” configurations, the Wine Prongs can be mounted onto solid backing panels of various materials.
- The Wine Prong Slider wall system allows for adjustable spacing of “Label Forward” wine bottles with varying densities for seasonal fluctuations.
- The ADP Design Team will be pleased to assist you in developing a configuration that will suit your space and design requirements.

### “LABEL-FORWARD” WINE PRONG

Single

Double

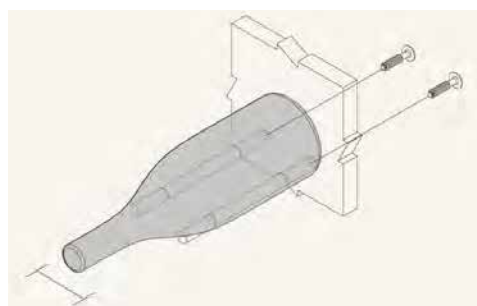

### “LABEL-FORWARD” WINE PRONG SLIDER

- This amazing panel-based system allows for some creative ways to display your wine collection in all manner of spaces.
- The panels are design to hook onto the wall with heavy-duty aluminium split battens so that they can be lifted off to make alterations if required.
- You can adjust the number of pegs according to the space requirements of your collection.

- May be supplied with bolts to fix on behind a melamine wall panel or with sliding fittings to fit into the “Wine Prong Slider” wall panelling system.

### “CORK-FORWARD” WINE PRONG
